The Dan McDonald—Capt. Henesy Case, Justice Meredith reserves Judgement.

When Burley Smith bought those little Islands in Bald Indian facing the Sultan, he did so, for strategic reasons, as he wanted a base of operations, but the chances are that he had no idea that by paying Capt. Henesy, and the late Judge Lyon's executors \$10,000 for the claims, he was to set in motion a mass of legal machinery which was destined to financially injure the unfortunate sellers of the little islands. The following are the facts of the case as recited by N. W. Rowell solicitor for Capt. Henesy.

McDonald v. Henesy.—N. W. Rowell for defendant, moved to set aside judgment in favor of plaintiff for \$1,000.00, of Robertson, J., and to enter judgment for defendant or for a new trial. Action to recover one-third of the sum realized by Henesy upon a sale of mining location formerly known as X 3 H. in the Lake of the Woods, which Henesy, acting with one Bailey, had in 1881 applied for to the Department of Indian affairs. In 1885 Henesy agreed with plaintiff to protect Dan McDonald on his part, agreeing to supply \$100 in consideration of a interest, which was conveyed to him by deed, dated in January, 1885, and delivered in April, 1885, and registered by him in 1888. Before \$100 had been expended Henesy told McDonald that there was nothing in the location and nothing further was done until 1892, when Henesy told Judge Lyon that the location was worth taking up Lyon took up the location, giving Henesy half interest. The location was sold by Lyon's executors in 1896, with another location, for \$10,000 and the trial Judge held that one-half \$5,000 was received by Henesy for the location in question. It was contended for appellant that it was clear on the evidence that McDonald had abandoned the location, and it was open to anyone to take up, and when taken up by Lyon it was by virtue of a new application then made to Department of Crown Lands, Ontario, and not by virtue of the old application, that fraud was not shown and should not be presumed. T. D. Delamere, K. C., for McDonald, contended that the court were of opinion that McDonald was entitled to recover either one-half or one-third of \$2,000, net of \$5,000, judgement was given in favor of McDonald for \$833.33 thus cutting in half Judge Robertson's award.

fact that the Indian is not devoid of gratitude:

About a year ago Mr. McKittrick, Presbyterian missionary, came to the office of Drs. Edmison & Laidlaw with the chief's wife from the Northwest Angle. She was suffering from an abscess on the hand which had done considerable damage. Dr. Laidlaw amputated the affected part and she fully recovered. When Chief Emmons and Dr. Laidlaw went out to quarantine the camps where smallpox had broken out, they were ordered by the Government to vaccinate everybody. There were seventy-four Indians near the camp who had been exposed to contagion, and it was considered necessary to vaccinate and quarantine them. They refused to submit, however, and became restless until the old chief from Northwest Angle spotted Dr. Laidlaw. He came up, shook hands very affectionately, ordered all the Indians to be vaccinated at once, and for a few minutes seven men could not have vaccinated Indians quickly enough, and they at once became peaceable citizens. Who says an Indian never remembers a kindness?

repair the systems as they now stand would cost about \$63,000. Mr. Blomson favors concentration of the two plants and building an entirely new system at an estimated cost of \$125,000. The ratepayers readily see now that they have been buncoed.

YOUNG MAN SUICIDES.

On Wednesday last, shortly after 12 o'clock, the community received a rude shock. A young man—a favorite with almost everybody who knew him, a trusted, and efficient employee of the Canadian Pacific Railway, one who apparently had a bright business and domestic future in front of him—destroyed himself with his own hand. He left letters of explanation, which do not explain the average practical mind, but also he was of a super-sensitive nature, and to him the private matters he wrote about were sufficient cause. His act is being criticized and his judgement questioned, by those who have not pondered over the words:—There are more things in heaven and earth than are dreamt of in our philosophy. The things that prey on his mind are deemed by the world "trivial." The world can understand a man taking refuge in the grave who is short in his accounts but he was not short—he was scrupulously honest in everything, even in principle, and he lies dead to-day a victim of his own sense of honor. A higher power will understand when man gropes in the gloom of ignorance he has gone to the fountain head of mercy and charity. His act shows that he had implicit trust in the Supreme Tribunal, where Technicality is not, and where ignorance of the Law is not treated as a crime.

THE BIG MASTER MINE

Development is showing up vast bodies of Rich Ore.

Mr. P. Paulson who has been employed at the Big Master mine since operations were started on the claim, speaking to a Miner reporter said that the Manitou property augers well to become the leading gold producer of the Rainy River district. The claim is crossed by two veins, one about two feet wide, carrying average values of \$20, and a big dyke over 100 feet wide, that up to the present has maintained a steady average of between nine and ten dollars. The new mill has not been put in operation yet as the engineer is waiting for a few necessary parts of the fittings to complete the plant.

Mr. Paulson himself states that he has been successful in interesting especially in one of his own claims, which he is instructed to develop immediately. The property is very rich on the surface, and if it continues as depth is attained, it is understood that a strong company will be organized to operate the claim.

DAM AT LAC SEUL.

Wend has reached the Crown Lands Department to the effect that it will be possible to construct a dam at the outlet of Lac Seul without causing the water to flow south. Mr. William Mangach, the Crown Lands agent at Rat Portage has written Mr. Aubrey White, stating as a result of a recent trip from the C. P. R. up to the lake, he has come to the conclusion that the work is practicable. He found a large section of good farming land not more than fifteen miles from the railway line. It occurred to him that the building of a single bridge in Rugby township would have the effect of filling that district with a desirable class of settlers. Besides the agricultural land Mr. Mangach located a forest containing about 10,000,000 feet of Norwegian pine.

The by-law to this effect for current expenses was read three times and finally passed and adopted.

THE CARE OF LITTLE ONES.

Some Sound Advice as to the Best Method of Treating Infant Indigestion. Nothing is more common in childhood than indigestion. Nothing is more dangerous to proper growth, more weakening to the constitution, or more likely to pave the way to dangerous disease. Among the symptoms by which indigestion in infants and young children may be readily recognized are loss of appetite, nausea, vomiting, constipation, bad breath, bloating and disturbed sleep. Indigestion may be easily cured, and Mrs. E. K. Bebbie, Lindsay, Ont., points out how this may best be done. She says: "When my baby was three months old she had indigestion very badly. She would vomit her food just as soon as she took it, no matter what I gave her. After feeding she seemed to suffer terribly and always

TO BUY WATER-POWER.

Mayor Cameron Authorized to Offer \$25,000 for H. B. Co. Land.

The council met according to resolution on Tuesday evening, with all members present but Alderman Hudson. Communications were received from manager Pennock, Bank of Ottawa, secretary the bridge and W. A. Breit. The report and payroll of the fire brigade was received and the wages authorized to be paid. The Board of Trade were granted the use of the town hall to hold their meetings. Messrs. R. B. Burn and A. M. Ross were appointed auditors at a salary of \$60 each. Alderman McCarthy objecting against local roads and making a vigorous plea for a government audit, on the ground that the council on which he had been mayor had been charged with incurring a deficit of \$80,000.

Two standing committees were appointed for the year. Finance and Works committee, the charge of the police being vested in the mayor.

The Finance report was adopted and the accounts amounting to \$50,000 were authorized to be paid.

Moved by Ald. Hosswill and Chadwick that the mayor be instructed to refute statements and misrepresentations of Winnipeg papers relative to works of Rat Portage.

Moved by Ald. Chadwick and Hosswill that the mayor be authorized to purchase from the Hudson's Bay Company ten acres of land situated between the floating bridge and the Winnipeg River at a cost of \$25,000.

The by-law to this effect for current expenses was read three times and finally passed and adopted.

THE CARE OF LITTLE ONES.

Some Sound Advice as to the Best
Method of Treating Infant Indigestion.

Nothing is more common in child-
hood than indigestion.

Nursing is

more dangerous to proper growth,

more weakening to the constitution,

more likely to give the way to

dangerous disease.

Among the symptoms

by which indigestion in infants

and young children may be readily rec-
ognized are loss of appetite, nausea,

aversion, coated tongue, bad breath,

hiccup, and disturbed sleep.

Indigestion may be easily cured, and

Mr. E. K. Begbie, Lindsay, Ont., points

out how this may best be done. She

says: "When my baby was three

months old, she had indigestion very

badly. She would vomit her food just

as soon as she took it, no matter what

I gave her. After feeding she seemed

to suffer terribly and would scream

with pain. She always seemed hungry

but her food did her no good and she

kept thin and delicate. She was very

sleepless and suffered also from consti-
pation. We tried several medicines

recommended for these troubles but

they did not good. Finally I saw

Baby's Own Tablets advertised and

got it box. After giving them to her

she began to improve in about two

days, and in a week she was

well. She could sleep well, the

vomiting ceased, her bowels became

regular and she began to gain weight.

She is now a fit, healthy baby, and I

I think the credit is due to Baby's Own

Tablets and I would not part with

them in the house.

Baby's Own Tablets is the only medicine

sold under an absolute guarantee

that it contains neither opium nor

other harmful drugs. These tablets

are a certain cure for all the afflictions

of childhood, such as sore throat,

indigestion, constipation, simple fever,

diarrhoea, etc.

They break up colds,

prevent croup and all the irritation

accompanying the cutting of teeth.

25 cents a box, a doctor's prescription

by mail post paid by addressing

ton, Ont., etc.

FIRE APPARATUS FROZEN.

St. Paul, Jan. 28.—Owing to the intense cold, much of the fire apparatus
used in extinguishing last night's fire
in the Davidson block, was frozen
where it stood, the flying spray and
water covering everything with masses
of solid ice. The department worked
about the ruins all night and it was
nearly noon today before it could chop
the ice away sufficiently to permit the
removal of the hook and ladders and
the geyser, which were most covered
with ice. The mercury during the
night reached 17 below zero, but some
slight relief was promised by tonight.
There was scarcely any wind stirring,
which greatly reduced the possible suff-
ficing from the weather.

THE TABERNACLE.

The Subject of the Sunday morning
sermon is "Knowledge and trust in
His power to keep." At 7 p.m. "The
Sons of God or how to begin a better
life."

Sunday School at 3 p.m. New books
in the Library.

After the morning worship the band
of fellowship will be given to new
members and the Lord's Supper ob-
served.

ASKING FOR A GAME.

The executive of the Thistle Hockey
Club are writing the management of
senior Victoria (Winnipeg) for an
exhibition game during bison week.
The game if arranged, will be played
on the Auditorium rink and will prove
a drawing card. The Victorians can
hardly refuse to give our boys this
game, and the local club have hopes of
securing a return game to be played
here later on.

RAT PORTAGE, ONT., JAN. 31, 1902.

SHEPHERD, THOUET IN A PARLOUR

ST. THOMAS, ONTARIO.

The correspondent of the Winnipeg Telegram for Rat Portage played a rather good joke on the guileless news editor of that paper. He sent in an account of the Hilliard fire and wrote, "the water supply ran out and horses were used to draw from the lake." The sainte may be somewhat weak in his sense, but he is certainly strong in imaginative work, and we think he ought to devote the rest of his life to pure fiction, as it seems a pity to waste such a talent as his on mere newspaper correspondence. But that news editor! The saints be praised, but he must be a daisy.

A TECHNICAL ERROR.

The correspondent of the Free Press made a technical error. He wired that one of the hydrants was frozen up, and to the uninitiated such would naturally appear to have been the case. It was not the hydrant however, but the "gasket" on top of it, which in weather at 35 below temperature need careful handling as the turning rod might twist or break, if too much force is used. The firemen usually overcome this difficulty by pouring a tea-kettle of hot water over the part, or by placing a piece of oiled waste, and burning it around the valve, five seconds being the outside limit of time required to get the full force of water on. As a matter of fact no time is wasted, not even the five seconds, as the man with the key thaws the valve while the hose is being coupled. We had a fire some weeks ago after a 40 below, spell, and it was not found necessary to apply any heat to the gaskets. And finally it is a well-known fact that Rat Portage has never encountered a frozen hydrant. Of course since the waterworks were installed the thermometer has never fallen lower than fifty degrees below zero, so that it would be unwise to make the statement that they never will freeze. True and a disappearing mercury can only decide and in the meantime we are all right down to fifty below.

The Rt. Rev. Leighton Coleman, Episcopal bishop of Delaware, says that intemperance among men is decreasing, but that intemperance among women is on the increase. High class restaurants patronized by the wealthy and fashionable set, serve wines, cordials and even whiskey to ladies who do not go through the pretence even of ordering a meal. "In England" says his Lordship, "conditions are worse even than here." If the bishop is right prohibition will now become popular among the men.

CHUMPS OF THE FIRST WATER.

If Port Frances grants to a private company the franchise for a telephone system the people will be kicking themselves all around the back country.

a marble monument on his grave, and have many virtues attributed to him after he is dead; but Providence knows all things and doesn't need a free library, and judging by the way Mr. Carnegie is acting just now, he is uneasy in his mind. Better for Mr. Carnegie, instead of accusing others, to get right up in the meeting and say "Mea culpa Mea Maxima culpa."

THE TRAIL OF THE MANIPULATOR.

A lawyer has sent one of the aldermen a letter calling upon him to resign, the which if he does not, said lawyer intimates his intention of commencing proceedings to unseat the recipient of the letter.

The minions of corporate greed are relentless in their hunt for the people's common assets; they work night and day while the elector toils and sleeps, and they make cunning snare and traps, that he may fall into their hands. It is said now that if one of the aldermen can be unseated, it will not be necessary to hold another election as the law provides that the seventh highest man gets the seat—thus practically, partially, disfranchising and annulling the votes of three hundred and seventy-seven of the electors!

Companies owning municipal franchises leave no stone unturned, and spare no expense to get their grip on a town council. They simply assert have their representatives at the civil board no matter what the cost may be;

* * * in the cost in any case will ultimately be borne by the citizen. How long will this condition of affairs last? How long will the Manipulator thus carry on his war against the liberty of the individual and, against the legitimate aspirations of the people?

The Winnipeg Telegram acknowledges that Rat Portage is justly indignant at the Free Press making the crack that one of our hydrants was frozen up. It will be in order now for the Free Press to say that Rat Portage fell apart in chunks when the people read in the "Telegram" that horses drew water from the lake which according to the correspondent had previously run out.

The Rt. Rev. Leighton Coleman, Episcopal bishop of Delaware, says that intemperance among men is decreasing, but that intemperance among women is on the increase. High class restaurants patronized by the wealthy and fashionable set, serve wines, cordials and even whiskey to ladies who do not go through the pretence even of ordering a meal. "In England" says his Lordship, "conditions are worse even than here." If the bishop is right prohibition will now become popular among the men.

WHERE DO WE COME IN?

STRENUOUS STINGERS.

The Wasp Has More Executive Tact Than Any Other Stinging Insect.

"I read in one of the magazines recently something about the sting of the bee," said a citizen, "and I was reminded of an experience I had with a friend some time ago while in the country. He was plowing over behind a small clump of hills, and they were well wooded almost down to the fence line. It was a section which is noted for making wildcat whisky, and this fact threw me off the track, as will appear hereafter. I was approaching my friend from the hillside. I was riding.

"Suddenly I thought he glanced at me, and at the same time he dashed around hurriedly to the singletree, unbuckled the irate chains, threw them across the horse's back, and the animal struck out on a dead run down the turning row which split the ravine. My friend followed, and it was a race for who laid the rail, as they say in the country. I could see through it all in a minute. My friend had been making moonshine whisky, and he thought I was a United States marshal. I split my sides laughing over the thought of the thing, and then I struck down the ravine after him. I travelled some distance before catching sight of my friend and his horse. Finally I found them close to a branch, and my friend was stooping down occasionally picking up something and smearing it on his hands, face and neck.

"Hello, Bill!" I said smilingly. "I guess you thought I was a United States marshal!" "United States?" he said almost entirely. I plowed up a hornet's nest. And sure enough he had, and both the man and the horse were as knotty as a hickory limb as the result of it all. The bee may be a good stinger, but the hornet is the fleetest thing on wings when it comes to using the stinger with swiftness and effect.

"That reminds me of the curious methods of bees and things of that sort in stinging," the narrator continued. "Take the honeybee, for instance. Now, the honeybee is what you might call a lazy, clumsy, docile sort of stinger. Really the bee is awkward when compared with other insects. The bumblebee is a trifle more vigorous, and there is a deal more of what one may call action in its movements. It is a striking sort of sting, and I have seen children almost knocked down by these heavier members of the bee family. It is a mean sting to handle, and it does not yield so quickly to treatment. The hornet and the yellow jacket sting on the wing, as it were. They do their work quickly, but thoroughly, and they generally leave a record behind them that they would have no cause to be afraid of if they had this element in their makeup.

"Let there is my old friend, the wasp. I want to speak of him. He is the prince of stingers. You may not forget him so quickly when he stings you. He leaves a sort of wasp taste in your mouth, and it is anything but pleasant, and it is a taste you will remember even after the stings have gone by. The wasp is a lingering sort of fellow. He lovingly and caressingly stings, perched for a while on one's neck, I may say, and then hums about his business. But really, while the wasp lingers longer than other insects while stinging, he also shows more anger and is probably the most spiteful member in the list of stinging insects."

When Men Wore Earrings.

Among civilized nations the wearing of earrings by men has been by no means uncommon, as it has been shown that in early English days some of the most distinguished noblemen decked their ears with very costly specimens. The immortal Shakespeare is said to have worn them, and Charles I. is reputed to have been the owner of a magnificent pair of pearl earrings which he bequeathed to his daughter the day before he was ex-

Few People Escape The Torture of Piles.

And Dr. Chase's Ointment is the Only Positive and Guaranteed Cure for This Wretched Disease.

There is usually very little satisfaction in considering a physician regarding a case of piles. In nine cases out of ten he will recommend a surgical operation, forgetting it may be, the risk, suffering and physical as well as financial expense which this treatment entails. For this reason very many people are going about in misery with piles, believing that they cannot be cured except by means of the surgeon's knife.

It is to such persons that this advertisement will bring good news of great value. Dr. Chase's Ointment has never failed to cure piles and it is recognized the world over as absolutely the only preparation that can be relied upon to cure every form of this frightful complaint.

It seems strange that anyone should suffer the wretched unhealthiness and acute torture of burning,itching piles when it is so easy to procure Dr. Chase's Ointment. Nearly every dealer in medicine keeps Dr. Chase's Ointment, and you can apply it at home without any inconvenience. If you send 25c to "Edmund Powers & Co., Toronto, and a box will be sent postpaid to your address. Ask your neighbor or druggist about this remarkable remedy.

DR. WOOD'S

NORWAY PINE SYRUP.

A positive cure for all Throat, Lung and Bronchial diseases.

Healing and soothing in its action.

Pleasant to take, prompt and effective in its action.

Mr. Chas. Johnson, Bear River, N.S., writes: "I was troubled with hoarseness and sore throat, which the doctor pronounced bronchitis and recommended me to try Dr. Wood's Norway Pine Syrup. I did so, and after using three bottles I was entirely cured."

Take a L. xvi-1/2 oz. Dr. Wood's syrup. You will work while you sleep without a grip of pain, owing to its power, combination, size and quality, which will make you feel better in the morning."

Imperial Bank died at his home in Toronto on Thursday night, aged 78.

The Citizens' Band will be a benefit at Victoria Bank on Tuesday evening next. Supporters of the band and all desirous of having a band in town may signify the same and have a good time by attending the rink on that evening. Look out for posters.

A dance will be held in the Opera House Assembly Hall next Wednesday evening. The arrangements are in charge of some of the young men of the town.

Our hockey boys have won five games and lost none, and the Winnipegs have lost five and won none. Ours is the only team in the league that has lost no games.

FOR those who cannot take plain Cod Liver Oil we have all the different kinds of Emulsions.

Local Interest

Dr. Schaefer has opened an office in the McLean block, over Ferrier's store, Second street.

Ald. Cameron has been appointed permanent acting mayor in the absence of Mayor Cameron. Municipal employees will now be able to get their wages without waiting for Mayor Cameron to sign cheques. His worship's business takes him to Winnipeg sometimes, and a few days delay makes a big difference to a working man, the action of the council therefore will meet with general approval.

Mr. P. H. Austin, of the Ottawa Powder Works, has opened an office in the Oddfellows block, Fort street.

Mr. Carscallen's bill has been drawn up with the object of enabling towns of over 5,000 population to issue thirty-year debentures for electric lighting purposes. At present they can only borrow money for twenty years, although towns of less than 5,000 in population are able to get funds for the longer period.

Golden Star stock took a 15 cent jump on Saturday. It is now held at 31 cents. Olive is now held at 7 with 56 bd.
